

H-PLUS Function Exercise: SLEEP

Function Command: PLUS-20-20

Purpose:

This is your H-PLUS Function exercise to learn to sleep whenever you so desire.

Application:

Use this Function exercise to drop quickly into normal sleep under typical conditions. For establishing control over the sleep cycle as against inadvertent or undisciplined sleep patterns.

(Instructions For Use:

- 1. Listen to the exercise in a dimly lit area where you will not be disturbed. Be able to lie down comfortably or sit in a chair where your head will be supported by a head-rest.
- 2. Be sure your bladder is empty before beginning the exercise. Also, loosen any tight clothing, and use cover or blanket if room is cool as body may get cold.
- 3. Use a stereo cassette tape player with headphones and left-right volume control, if possible.
- 4. Keep exercise sound at a very soft volume, so that you can just barely hear and understand the voice, but no louder. Tune the left-right volume so the voice sounds exactly in the middle of your head.
- 5. Use the Preparation Exercise *first*, unless you have prior learning in other H-PLUS Functions.
- 6. Use the actual Function Exercise at least one day after learning the Preparation Exercise.

Effectiveness Pattern:

- At the very minimum, most Functions will move into place no earlier than two minutes after the Function Command is given.
- Most results are subtle rather than dramatic.
 Waiting and watching only delay the application.
- If no results whatsoever are noticed, repeat the above process (1-6). It may take three or more sessions to install the Function.
- Greatest results are achieved when H-PLUS Functions are applied *in combination* with each other. These are limited only by your own creativity.

Suggestions For Use:

 SLEEP is a good prelude to specific sleeprelated H-PLUS Functions like RESTORATIVE SLEEP, WAKE/KNOW and SWEET DREAMS.

Examples – If you've had a tiring day at a mentally and physically demanding job, do PLUS-20-20 with RESTORATIVE SLEEP. When exciting plans for the next day have you too keyed up to drop off quickly, try SLEEP. Begin with SLEEP when you're preparing to seek solutions with WAKE/KNOW or enjoy the dream of your choice with SWEET DREAMS.

Please Note:

- You may find that sleep comes quickly, even if you have exciting plans or a problem on your mind.
- Insomniac tendencies may abate, allowing you to sleep on a schedule of your choosing.
